**DECISION No. 14/2021**

On the basis of Article 138, point 2 in conjunction with Article 127 § 3 of the Act of 14 June 1960 – the Administrative Procedure Code (Journal of Laws of 2021, item 735), after re-consideration of the case ended with decision No. 13/2021 of 2 August 2021 concerning authorization of Mrs Anna Huszcza-Podgórska running a business activity under the name *Green & Property Consulting Anna Huszcza-Podgórska* to carry out efficacy tests of plant protection products

- **I repeal the contested decision in full and in this regard I amend the said decision as follows:**
- **“I authorize Mrs Anna Huszcza-Podgórska running a business activity under the name *Green & Property Consulting Anna Huszcza-Podgórska* (address: ul. Na Stoku 6/6; 26-601 Radom) to carry out efficacy tests of plant protection products in the following categories: fungicides, herbicides, insecticides, plant growth regulators and bactericides in the field crops (*spring and winter wheat, spring and winter barley, spring and winter triticale, winter rye and oats*) of corn and winter oilseed rape, in orchard cultivation (apple tree, pear tree, strawberry) and non-agricultural land”.**

**Justification**

In her application of 5 July 2021 supplemented by a letter of 27 July 2021 and an electronically sent document of 2 August 2021, Mrs Anna Huszcza-Podgórska running a business activity under the name *Green & Property Consulting Anna Huszcza-Podgórska* asked the Main Inspector of Plant Health and Seed Inspection to authorize her to carry out efficacy tests of plant protection products.

Decision No. 13/2021 of 2 August 2021 issued in this case did not take into account part of the application which concerned a possibility of carrying out efficacy tests of plant protection products in field crops of corn and oilseed rape.

On 10 August 2021 the applying party asked to supplement the said decision in respect of the above mentioned crops. As this request was made within the time-limit for filing an application for re-considering the case, the application was recognized as legitimate.
